

IF YOU ARE FACING ERROR MESSAGE WHILE
RUNNING THE FILE:

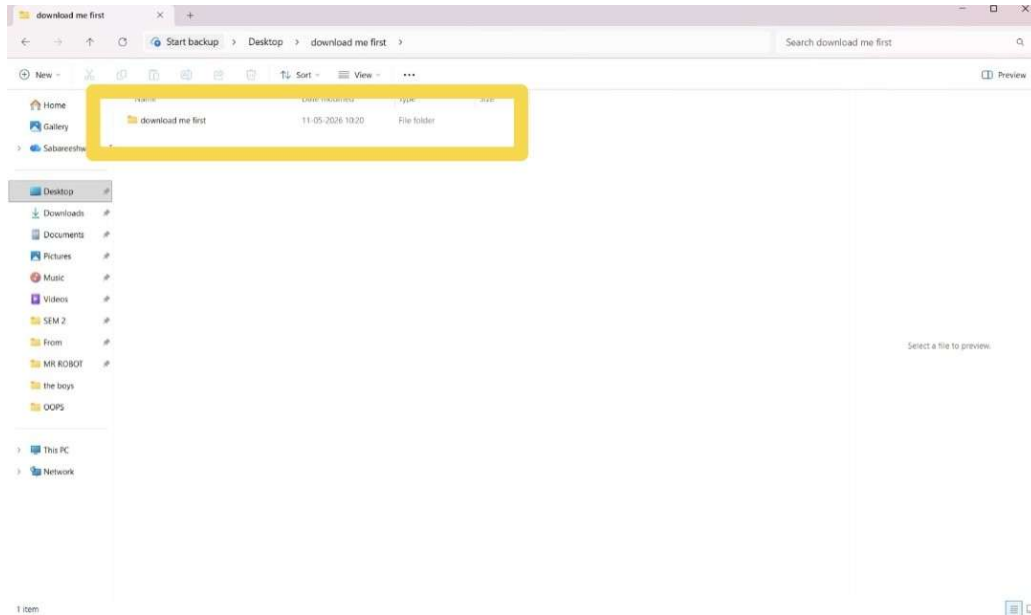

“download me first.bat”

ERROR MESSAGE DISPLAY:

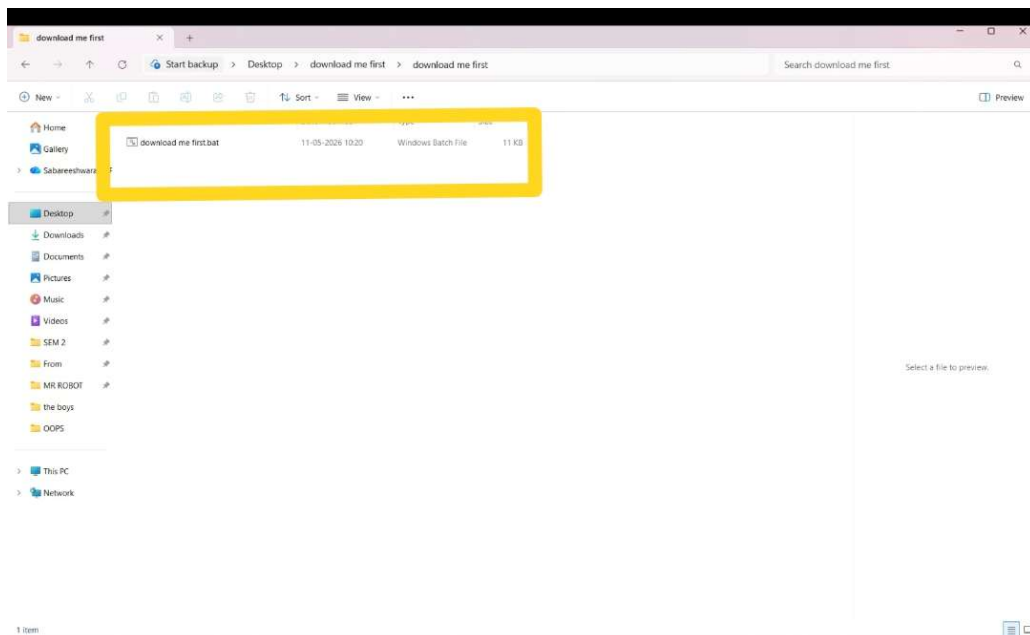

FOLLOW THIS STEPS TO RUN THE APPLICATION:

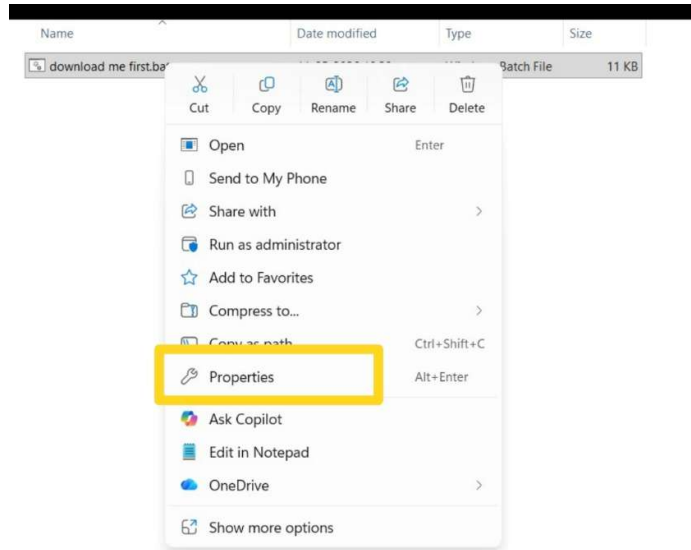

1. After extracting/unzipping the “**download_me_first**” file, open the extracted folder named “**download_me_first.**”

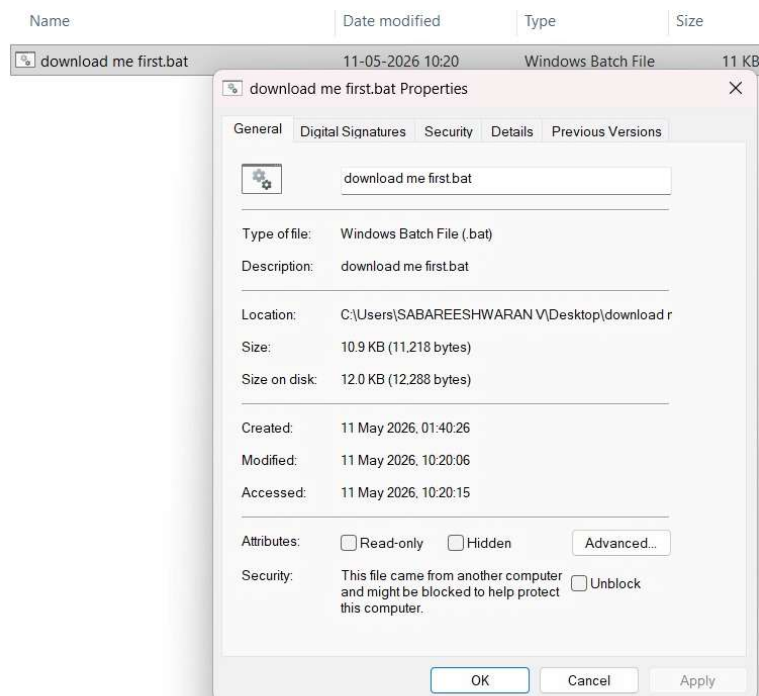

2. Inside the folder, locate the file named “**download_me_first.bat.**”

3. Move your mouse cursor over the **download_me_first.bat** file and **right-click** on it to open the options menu.

4. From the menu that appears, click on **Properties**. This will open the file settings window.

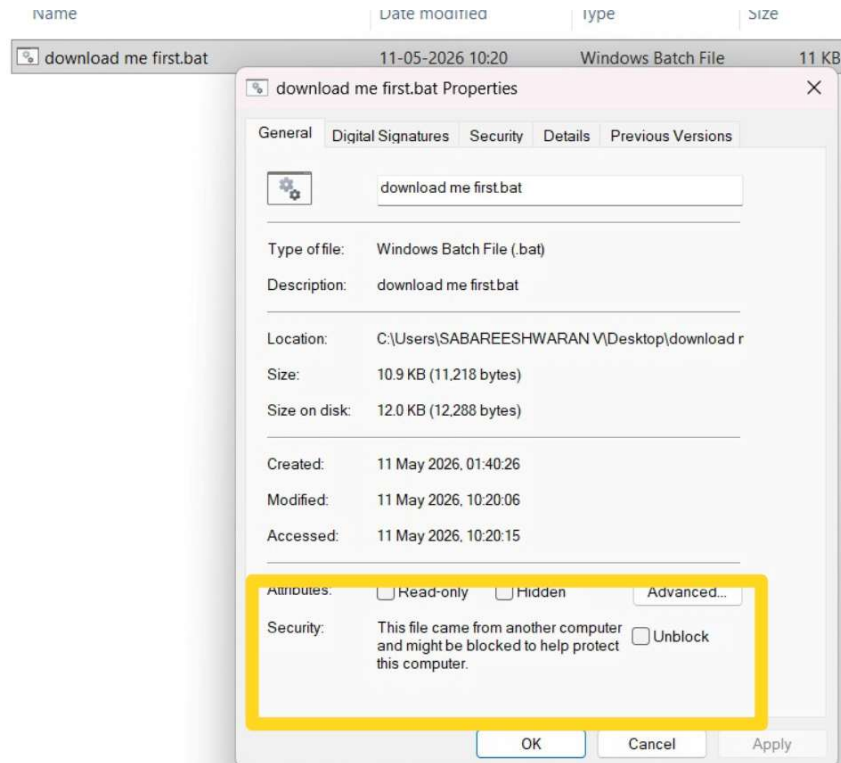

5. In the Properties window, make sure you are on the **General** tab.

- This tab usually opens automatically by default.

6. Scroll to the very bottom of the General tab and look for a section called **Security**.

- You may see a message similar to:
“This file came from another computer and might be blocked to help protect this computer.”

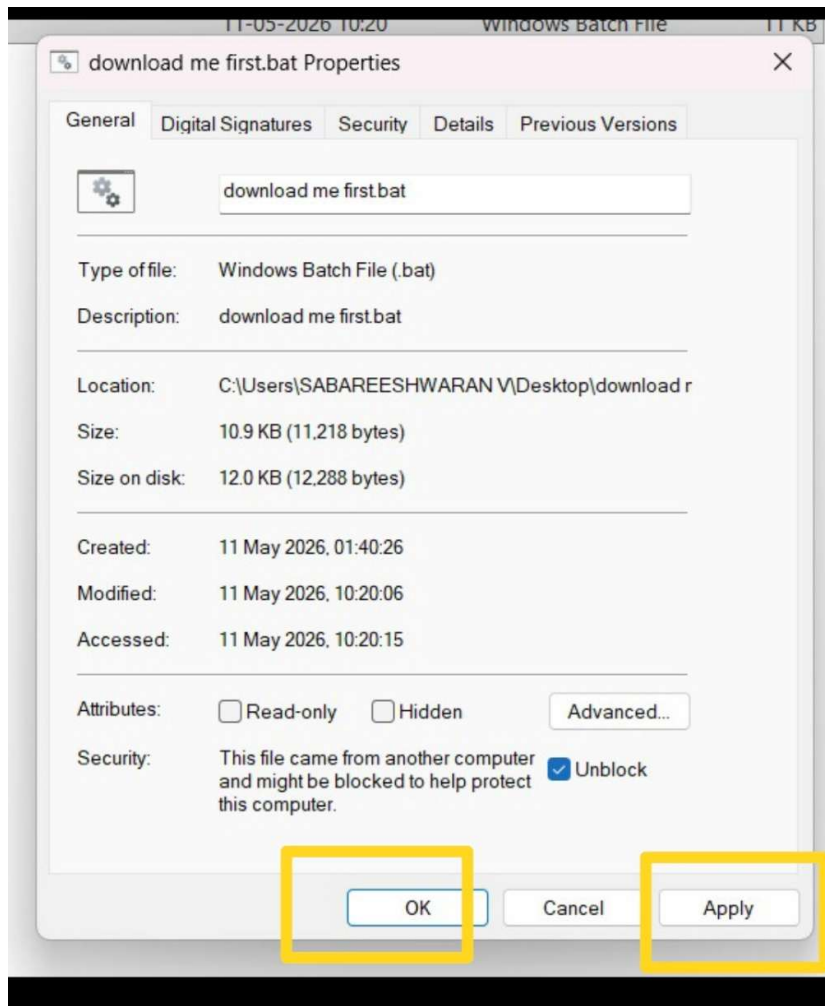

7. Below this message, you will find a checkbox labeled **Unblock**.

- Click the checkbox to place a tick mark in it.

- This will allow Windows to run the file without security restrictions.

8. After checking the **Unblock** option, click the **Apply** button located at the bottom-right corner of the window.

9. Then click **OK** to save the changes and close the Properties window.

10. You can now run the **download_me_first.bat** file normally by double-clicking it.
